of the above anomaly, and is given a B or A priority.

Line 14.5/275-350 S:

On the flank of a magnetic anomaly, with a high As, moderate Sn and Cu coincident anomaly - A, possibly B priority.

Line 15/1725-1775 N:

Strong I.P. - cond. anomaly with a moderate magnetic, Sn and As response. A priority.

6. RECOMMENDATIONS:

It is recommended that exploration during 1975-76 should be confined to diamond drilling.

Six or possibly seven holes are proposed - 4 or 5 on E.L. 2/63 and 2 on E.L. 18/73.

Budgets of \$80,000 for E.L. 2/63 and \$40,000 for E.L. 18/73 are proposed and budget details are attached as Appendix 2.

The seven holes recommended are:
