1.

ANALYSIS

%

Sample Mark	Fluorine F	Calcium Fluoride CaF <sub>2</sub>
M-03	10.3	20.1
M-05	0.90	1.75
M-06	0.10	0.2
M-09	4.8	9.35

NOTE: The quotation of \$4-00 per sample given by telephone was made on the understanding that 20 or so samples were to be submitted. Also that the values expected were of "geochemical" significance i.e. less than 5000 ppm. The values found in these samples necessitated the use of alternative methodology for which our price is \$8-00 per sample.
