A REPORT ON
A RECONNAISSANCE MAGNETIC INDUCED POLARIZATION SURVEY
OVER THE MOINA GRID EL 7/74 NEAR WILMOT, TASMANIA
ON BEHALF OF
COMALCO LIMITED

INTRODUCTION

At the request of Mr. P. Askins Comalco Limited's Senior Geologist, Northern Tasmania, Scintrex Pty. Ltd. executed magnetic induced polarization surveys over the Moina grid near Wilmot Tasmania on about 40 production days between 5th April and 12th May, 1977.

These surveys were undertaken by Mr. B. Ekstrom Senior Scintrex operator with assistants provided by Comalco Limited. On site geological supervision was provided by Mr. G. Weste and Mr. P. Askins, while such additional geophysical direction as was required was provided by A.W. Howland-Rose who visited Comalco for the purpose of discussions on 22nd April and 6th June, 1977.

The method is briefly described in Appendix 'MIP'.
