THE AUSTRALIAN MINERAL DEVELOPMENT LABORATORIES

TREATMENT OF MOINA FLUORITE

**D1 SAMPLE REQUIREMENT**

25 kg of representative ore should be sufficient for the investigation.

Sample advice notes are enclosed. Please forward with or in advance of the samples.

Samples should be packed in strong containers and labelled inside and outside with the Proposal number shown on the front of this document.

Samples should be consigned to "Amdel, Mile End" if being forwarded by rail or to "Amdel, Osman Place, Thebarton, South Australia" if being sent by road.

Samples will be held for three months after the issue of the final report when unless advice is received to the contrary, they will be destroyed.

**D2 COMMENCEMENT DATE**

Within one week of receipt of sample.

**D3 ANTICIPATED DATE OF COMPLETION**

4 months from commencement.

**D4 AMDEL OFFICERS FOR CLIENT CONTACT ON TECHNICAL MATTERS**

I.W. McPheat - Beneficiation studies  
R.J. Allen - Chemical investigations.
