Attn: Mr. P.W. Askins

Dear Sir,

R.731: Moina Wrigglite Oredressing

Following receipt of your sample 761736 of wrigglite from dumps etc around the Shepherd and Murphy Mine we have begun a scout testing program a copy of which is attached for your information.

This scout program is a preliminary examination to allow us to get a better appreciation of the problem before proposing a more detailed investigation.

We have now progressed with the scout program to para. 3 and have samples 3b and 3c available for disposal as you direct.

Yours faithfully,

(H.K. Wellington)  
Chief Chemist & Metallurgist
