R745: Moina Wrigglite.

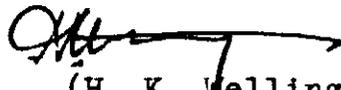

Dear Sir,

Please find attached the report on the above project a summary of which was given you by letter on 5th Sep'77. The long delay has been due to problems with equipment for fluorine assays.

Further work on Moina Wrigglite (R758) on a ton sample is proceeding. A head assay of this material gave:-

Sn	0.3%
WO ₃	0.16%
S	0.8%
Ca	12.7%
T.Fe	21.2%
S.Fe	20.4%

Yours faithfully,

(H. K. Wellington)
Chief Chemist & Metallurgist.
