

APPENDIX 33.NEW TECHNIQUES FOR SCHEELITE FLOTATION.

Exploration Department,  
P.O. Box 691,  
DEVONPORT. TAS.7310.

1st September, 1978.

Mr. H. Wellington,  
Chief Chemist & Metallurgist,  
Department of Mines,  
Wellington Street,  
LAUNCESTON. 7250.

Dear Mr. Wellington,

Moina Wrigglite.

I thought that it might be valuable to draw your attention to the attached article, which could be particularly relevant to beneficiation studies of the wrigglite.

Yours sincerely,

Paul Askins,  
Senior Geologist.
