

2821

RENISON LIMITED

BLUE TIER AREA EL 9/76
LOTTAH GRID
LINES 63 N & 66 N

GEOLOGIST: A. ROSS
DRAUGHTSMAN: T. G. B. S.
DATE: Jan 1980

SCALE: 1:5000 METRES

DRAWING No. BT 203

GEOCHEMISTRY

Sections looking north

Legend for geochemistry symbols: Sn, Hg, Cu, Pb, Zn.

GEOLOGY

Legend for geological symbols: Recent - alluvial alluvial workings, Basalt alluvium, Basalt cone, Dolerite intrusion, Mafic dyke, dykes (minor), LOTTAH GRANITE - younger intrusions, Leucocratic equigranular granite, Anchar granite, Blue tier composite batholith, Mesocratic porphyritic biotite granite, Generally coarse grained (C&G).

Legend for geological symbols: Generally medium grained (C&G), LOTTAH GRANITE - younger intrusions, Leucocratic equigranular granite, Anchar granite, Blue tier composite batholith, Mesocratic porphyritic biotite granite, Generally coarse grained (C&G), Brecciated rock.

Find in medium grained, include all other leucocratic types (C&G), e.g. quartz - feldspar porphyry (QFP), quartz - melanocratic granite, dyke.

5 cm scale bar.
