

Reserve Boundaries

- Indicated } 0.3% Sn cut off
- Inferred } 0.3% Sn cut off
- 0.4% Sn cut off
- 0.2% Sn cut off
- A Dolomite block number
- a Porphyry block number

- |                          |   |                        |                                 |
|--------------------------|---|------------------------|---------------------------------|
| <b>DEVONIAN</b>          | <b>PRE-CAMBRIAN</b>                             | <b>PRE-CAMBRIAN</b>    |                                 |
| Quartz vein              | Dolomite sulphide lode - pyrrhotite rich        | Siltstone.             | Fault - interpreted             |
| Porphyry.                | Dolomite sulphide lode - pyrite rich            | Quartzite / sandstone. | Interpreted geological contact. |
|                          | Dolomite sulphide lode - talc rich              | Tuff.                  |                                 |
| <b>PRE-CAMBRIAN</b>      | Dolomite sulphide lode - serpentinite rich.     |                        |                                 |
| Dolomite.                | Dolomite sulphide lode - quartz/carbonate rich. |                        |                                 |
| Recrystallised dolomite. | Shale / carbonaceous.                           |                        |                                 |
