

Fault Block Diagram

- Notes:**
- (1) Projected horizontal thicknesses shown.
  - (2) Surface trace & geological contacts are of hangingwall of the Grand Prize Fault.
  - (3) Drillhole intersections are mostly of Grand Lottery Fault above fault intersection line & of Grand Prize Fault below fault intersection line.
  - (4) Underground openings are in mineralized fractures parallel to the Grand Lottery Fault; they are located east of the Grand Lottery Fault and west of the Grand Prize Fault.

GLF - Grand Lottery Fault  
GPF - Grand Prize Fault
