OPEN FILE

QUARTERLY REPORT - SECOND QUARTER, 1984.

S. TAYLOR,
JULY, 1984.

QUARTERLY REPORT - SECOND QUARTER, 1984.
(Covering the period 4.4.'84 to 26.6.'84.)

1. INTRODUCTON

E.Z. is conducting exploration in E.L's 30/83, 31/83 and 32/83 (Fig. 1) on behalf of the E.Z.-Amoco Gordon Limestone Joint Venture. The exploration programme is designed to investigate the potential for sedimentary-exhalative Pb-Zn mineralisation in the Ordovician Gordon Limestone, based on the "Irish-style" model, and for Selwyn-Basin (Canada)-style sedex Pb-Zn mineralisation in Silurian - Devonian argillaceous sequences.

Formerly, these E.L's were reported separately, but as the Mines Department has now allowed their expenditure commitments to be amalgamated into one total commitment, these E.L's are now covered by a single quarterly report.

2. WORK COMPLETED

No field work was undertaken during the period under review. Consequently, project work was restricted to a compilation, review and interpretation of all the data collected in the previous quarter's field work. As this is documented in the reports listed below, which are being forwarded to the Department under separate cover, no further comment is necessary here.

- E.Z. Report No. T185 Part E.L. 31/83 (Macquarie), Hazel Creek Area
Progress Report on Exploration Activity, 1st October,
1983 to 30th March, 1984. 84-2181
I.J. Mathison, June, 1984.
- E.Z. Report No. T186 Part E.L. 31/83 (Macquarie), Nora River Area
Progress Report on Exploration Activity, 1st October,
1983 to 30th March, 1984. 84-2180
I.J. Mathison, June, 1984.
- E.Z. Report No. T187 Part E.L. 30/83 (Governor) - Spence River Area
Progress Report on Exploration Activity, 1st October,
1983 to 30th March, 1984. 84-2188
I.J. Mathison, June, 1984.
- E.Z. Report No. T188 Part E.L. 30/83 (Governor) - Nelson River Area
Progress Report on Exploration Activity, 1st October,
1983 to 30th March, 1984. 84-2189
I.J. Mathison, June, 1984.
- E.Z. Report No. T189 Part E.L. 30/83 (Governor) - King River Area
Progress Report on Exploration Activity, 1st October,
1983 to 30th March, 1984. 84-2187
I.J. Mathison, June, 1984.
- E.Z. Report No. T190 Part E.L. 30/83 (Governor) - Governor River Area
Progress Report on Exploration Activity, 1st October,
1983 to 30th March, 1984. 84-2186
I.J. Mathison, June, 1984.

3. FURTHER WORK

The proposed further work is described in the above reports. Such work is expected to commence in the fourth quarter of 1984. At this stage it is anticipated that no project work on E.L's 30/83, 31/83 and 32/83 will be undertaken in the third quarter.

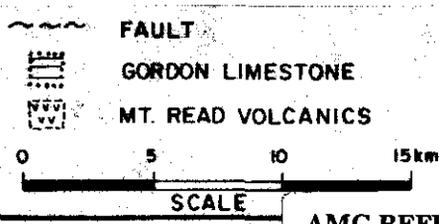

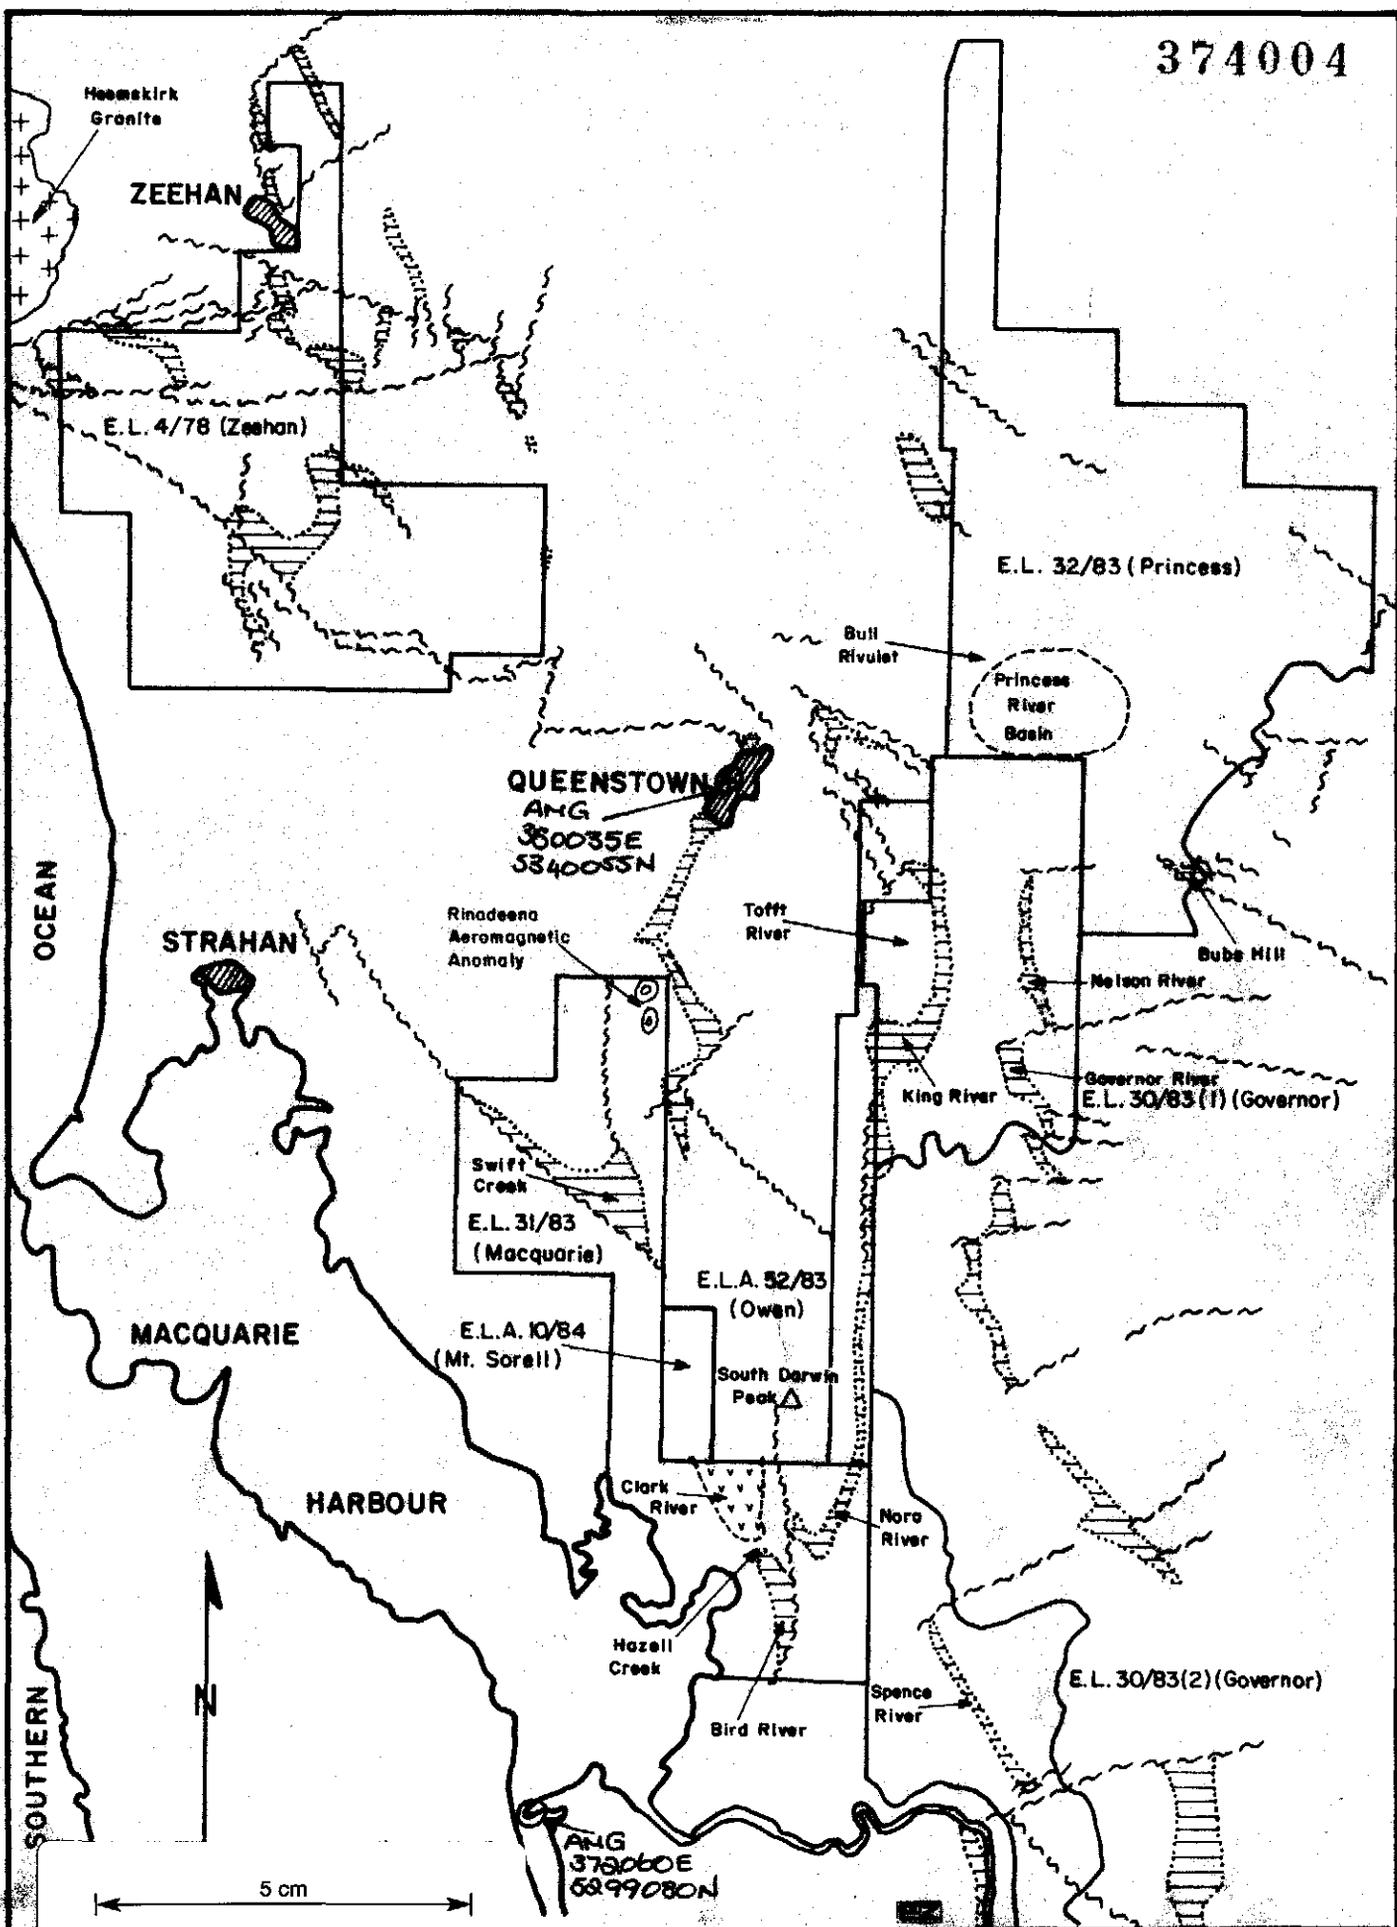

Stewart Taylor,

Supervising Geologist - Tasmania,

Mineral Resources Division.
