

E.L. 49/82

E.L. 49/82

- LEGEND**
- Recent Roland Conglomerate Talus
  - POST CAMBRIAN**
  - Roland Conglomerate/ Unaffl. Volcanics & Sediments
  - CAMBRIAN**
  - Rhyolitic - Precambrian derived volcanics
  - Beulah Formation basic-intermediate volcanics and pyroclastics
  - Siltstone - tuffaceous greywacke / Gog Range Greywacke
  - Epiclastics
  - Quartz feldspar hornblende porphyries lavas and intrusive phases (Minnow Karstophya)
  - Tonalite - gabbroic intrusives
  - Silicification and tourmalinization
  - Geological Boundary
  - Interpreted
  - Mapped
  - Geology fact traverse
  - Syncline, Anticline with plunge
  - Bedding Dip and Strike
  - Foliation
  - Rock Chip Sample
  - Stream Sediment Sample
