|--------------------------------------|------|
| A. INTRODUCTION                      | 1    |
| B. THE UTEM <u>III</u> SURVEY SYSTEM | 2    |
| C. GEOLOGICAL CONSIDERATIONS         | 8    |
| D. SURVEY DESIGN                     | 10   |
| E. DATA PRESENTATION                 | 12   |
| F. DATA INTERPRETATION               | 15   |
| G. CONCLUSIONS AND RECOMMENDATIONS   | 17   |

List of Appendices

1. Field Instrumentation and computer specifications
2. Cutty Sark data and legend for Utem plots.

List of Figures

1. Examples of Utem profile over a thin steeply dipping conductor.
2. Example of Utem profile over a deep moderate conductor of limited strike and depth extent.
3. Example of Utem profile over a conductor under conductive cover -  $H_z$  component.
4. Example of Utem profile over a conductor under conductive cover -  $H_x$  component.
5. Plan of interpreted conductive units-Cutty Sark.
6. Continuous and point normalization.
