

Drill Hole Summary Sheets for CHP 228, 238, 240, 241, 243.

Dighem plans at 1:10,000 of E.M., Mag., Enhanced Mag., and Resistivity.

Dighem profiles at 1:5,000 for lines 1, 2, 3,4,5,6,7, 700, 710, 8, 800, 810, 9, 900, 910, 10, 1000, 1010,1020, 11, 12, 13, 14, 15, 16, 17, 1700, 18, 19, 20.

The primary objective was to evaluate the usefulness of the downhole EM technique and propose further similar surveys if required. As a secondary objective the surface geophysical data was re-examined to search for further clues as to the possible location of a mineralised deposit.
