

1. Surface shown is projected outcrop position of No. 2 Anomaly zone.
2. Positions where traverse lines across outcrop are shown.
3. Geological and geochemical responses obtained on traverse lines across the outcrop position are also shown.
4. Centre of ore zone diamond drill hole intersection point. Thicknesses shown are estimated true thicknesses.
5. Holes ML 2/1 to 2/7 were drilled by Abercrombie in 1966-68. Complete assays are not available.

1. Projection plane runs grid N.W.-S.E. and Jaws N.E.
2. Grid and R.L. systems used are Randam Mine systems.
3. Projection limits and section lines correspond to those of the Mt. Lindsay 1:2000 base plan M.16.
