

Sampling results  
Underground workings  
(Aug. 1945)

Results of reconnaissance sampling		
Sample N°	% Sn.	Remarks
1	4.37	Over 1.2m. width, bottom of winze.
2	8.90	Bottom of winze.
3	0.11	End of N°2 cross-cut.
4	0.22	Over 1.5m. width, next to rise.
5	1.23	Decomposed granite at top of winze.
6	0.90	From spoil heap.
7	5.60	Over 0.8m. width, from trench wall.
8	0.50	Over 0.6m. width, end of trench.
9	0.22	Trench bottom.
10	0.22	Trench bottom.
11	0.07	Trench bottom.
12	33.70	1/2 lb. nugget of cassiterite, top of winze.
13	0.72	Over 0.9m. width, sample 3.0m. from portal.
14	0.78	Over 1.5m. width, next to rise.
15	2.63	Over 1.5m. width, hanging wall of winze, 4.3 m. below ground level.
16	2.63	Over 1.5m. width, hanging wall of winze, 4.3 m. below ground level.
17	24.30	Over 0.3m. width, N.E. corner of trench.
18	0.44	Over 1.2m. width, 12.2m. E. of N°1 Winze.

NOTE: ① - Sample location.

Sampling results  
Surface geology  
(Jan. 1945)

NOTE: Theodolite survey - datum level by aneroid. Contours in feet.
