LEGEND

- Joint with dip and magnetic bearing
- Joint vertical
- Foliation (of crystals)
- Geological boundary — definite
- Geological boundary — approximate
- Area of tourmaline nodules
- Old mines and prospects
- Sample / Locality numbers

COMPIATION NOTE

The map is a composite of geologic information superimposed on a topographic reproduction of ground photographs. The data are geologically dated to 1971.

Geological base mapping and interpretation carried out by: Alan Matthews, Alan Matthews.

REFERENCE

- Contour
- Depression
- Spot Heights
- Center
- 10 to 1000m intervals (scale locality)
- Contour interval 1 metre
- Spot heights 10 to 100m
- Heights 10 to 100m (height datum)
- Coordinates also map grid
- Grid lines 200 metres
