The Director,
Department of Resources and Energy,
Division of Mines and Mineral Resources,
P.O. Box 56,
ROSNY PARK, TAS., 7018

Dear Sir,

FINAL REPORT EL 34/87 BULL CREEK

This licence which covers an area of 21 km² to the south-west of Cethana was granted to CRA Exploration Pty. Limited on 20th September, 1987. Following the closure of our Hobart Office in January 1988 the area was joint ventured out to RGC Exploration Pty. Limited under an agreement formally signed in July 1988.

All exploration work on the Licence was carried out by RGC and on their notification of intention to withdraw from the joint venture in July 1990 CRA Exploration notified the intention to Surrender the Licence.

RGC Exploration have supplied three reports to CRA Exploration and both companies are in agreement that these reports can be put on open file. These reports are:

1. EL 34/87 Bull Creek Annual Report 1988 by M.J. Fleming dated August 1988,
2. EL 34/87 Bull Creek Six Monthly Report to 30-6-89 by M.J. Fleming dated August 1989, and
3. EL 34/87 Bull Creek Annual Report 1989 by M.J. Fleming dated September 1989.

Apparently no further work was carried out on the Licence area and no further reports were made available to CRAE.

The Annual Report for 1988 includes:

- A review of previous work with references.
- A review of Regional Geology and plan Appendices attached included.
- List of land owners.

- CRAE Memorandum by T. Von Stokirch on ground magnetic follow up of aeromagnetic anomalies. Includes 13 magnetic profiles.
- Report by Lawrence D. Meinert on Observation on Skarns in Western Tasmania - with particular reference to gold. 1st August, 1988.

The Six Monthly Report gives details on

- A 26 sample -200 mesh stream sediment survey with results and location plan.
- Geological mapping of EL 34/87 and plan.

The 1989 Annual Report re lists the stream sediment survey, the geological mapping and review of Previous work but also includes:

- A review of regional geophysical (magnetics and gravity) carried out by Dr. D.E. Leaman.
- An interpretation of the structure of the granite roof and plan.
- A listing of magnetic anomalies and suggested sources.

I trust you will be able to accept this letter as a final report on the EL 34/87 area and are able to place the three reports listed on your open file system.

Yours faithfully,

T.W. DICKSON

Chief Geologist

MESSAGE:

DENNIS,
AS INDICATED TO YOU ALL WORK ON THE
BULL CRACK EL 34/87 TITLE WAS DONE UNDER
JOINT VENTURE AGREEMENT BY ROBINSON GOLDIELDS
WHEN THEY WITHDREW FROM THE J.V. WE DECIDED
TO DROP THE GROUND. WE HAVE RECEIVED THREE
REPORTS FROM ROBINSON

- (1) EL 34/87 BULL CR. ANNUAL REPORT 1988 M.J. FLEMING
- (2) EL 34/87 BULL CR. SIX MONTHLY REPORT + 30-6-89 M.J. FLEMING
- (3) EL 34/87 BULL CR. ANNUAL REPORT 1989 M.J. FLEMING

NO FURTHER WORK WAS CARRIED OUT AFTER THE
1989 ANNUAL REPORT.

YOU COULD PLACE THE THREE REPORTS ON OPEN FILE
FOR GTA NOTIFICATION AND WILL SEND FORMAL LETTER
TO CONFIRM THIS.

PLEASE CONTACT US IF ALL PAGES ARE NOT RECEIVED

REGARDS
T.W. Dickson
