

2. INTRODUCTION

The Lake Mackintosh Exploration Licence (EL 106/87) was granted to Aberfoyle Resources Limited on 5 February, 1988 subject to the Hellyer Mine Agreement Ratification Act 1987. The licence comprised 135 sq. km. previously covered by EL's 2/70 (Mackintosh) and 15/73 (Hatfield) and encloses the 20.2 km² of CML's 68M/84 and 103M/87 (encompassing the Que River and Hellyer mines and facilities).

Under the terms of this Act, EL 106/87 was reduced to 95 sq. km. on 5 February, 1990. Current tenure is shown on Figure 1.

This report summarises exploration completed in the Mackintosh district on EL 106/87 for the period April 1990 to March 1991.
