

**Figure 5. Variation of total strontium(ppm) in drillcore samples in the Hellyer district. (Data from Jack, 1989). The central figure (c) shows the location of drillholes and figures (a) and (b) show the full range of strontium data for drillholes projected onto east-west and north-south planes respectively. Figures (d) and (e) show the median and range of these data using box and whisker plots see below.**
