

DETAILS IN THIS NW CORNER ARE REDRAFTED FROM 1:25,000 PLANS

DISCONTINUITIES ON FAULT BELT ARE THAT BEING AND HENRY ZONE

FAULT BELT ZONE APPROXIMATELY THIS AREA

FAULT BELT ZONE APPROXIMATELY THIS AREA

LEGEND

- reverse fault
- normal fault
- synformal axis
- antiform axis
- shear / fault
- bedding orientation
- inferred boundary
- lithological boundary

NOTE: Only some of the lithological boundaries have been transferred to this plan. This interpretation is based upon the 1:10,000 scale solid geology maps and is intended to illustrate how the interpretation of structure may assist in mapping.
