

223002

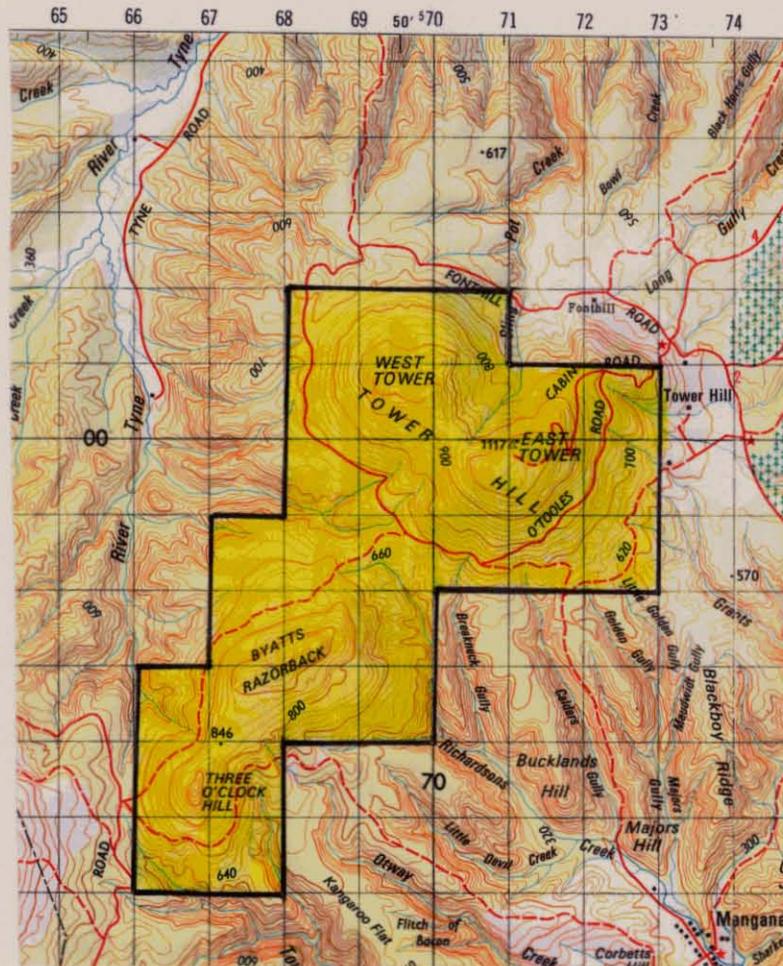

R.L.8814

**ANNUAL REPORT FOR THE 12 MONTH PERIOD TO 09.12.95;
CORNWALL COAL CO. N.L.**

The Tower Hill area, of 30km², is located 20km north west of Fingal. The Triassic coal measures are equivalent to those in the Nicholas Range, and include coal seams up to 2m thick. Several holes were drilled by Cornwall Coal some years ago, but no exploration was carried out in the reporting period. The extent of R.L.8814 is shown on Figure 1.
