See folio 14

E.L. 16/93 covers an area of 12km² in the District of Dorset in the vicinity of the St Patricks River.

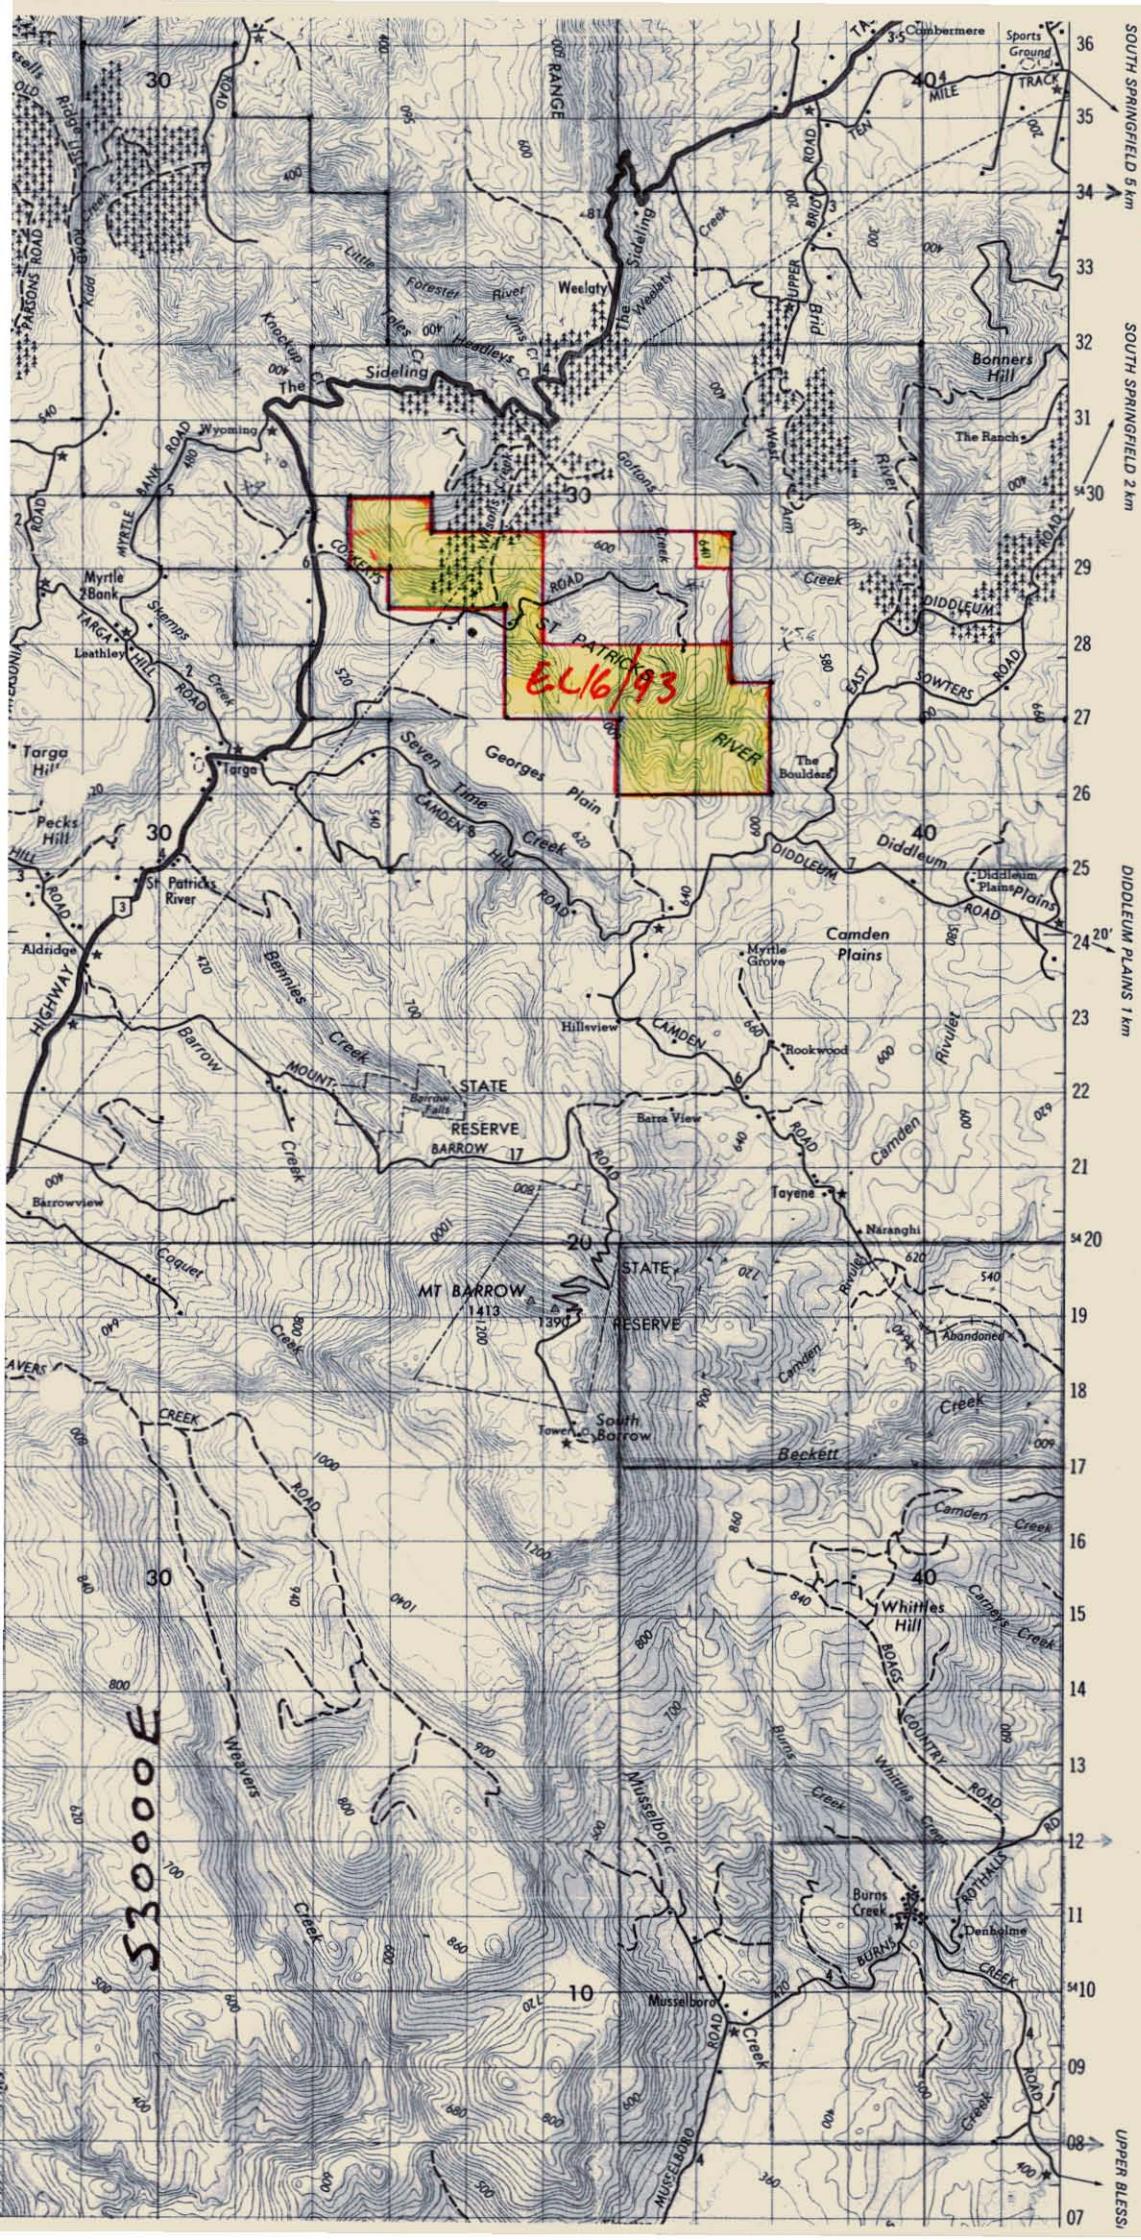

The country rock is mathinna beds.

The tenement is considered prospective for vein style good deposits. Following a reconnaissance ground inspection of the whole area it was decided that only one small area was in fact prospective for this model.

As a result of this inspection, of the total area of 12 km² under licence no 16/93, 8.5km² is to be relinquished (see attached map).

216003.

To BE RELINQUISHED
