Special tests: _____

Group Symbol (unified soil classification system): SW-SP.

Geological Description: - loam, sandy loam, grey bedding sand, grey impure sands. - little white sand left, small deeper pit of fat sand

History: - Used by Clarence Council, Housing Dept, Telecom etc.
- Used as a base for mixing varieties of sand and loam from Max's () and other nearby pits. - In use for last 20 years.

Remarks: Sample - higher grade ^{white} sand.

Much of this site is being "tidied up" with waste being used on the tip at Lauderdale. This is a preliminary move before the sand land is revegetated and probably sub-divided
